Wheat Lost a Fraction on the Effect of the Visible Supply Increase.

THAT CEREAL WAS DULL FROM THE START

Prices Declined Steadily for a Half Hour and the Gloom Thickened One Encouraging Feature of the Day.

CHICAGO, Dec. 5 .- With the depressing of feet of the increase in the visible supply and influenced by the duliness which was the notable feature of today in the Board of Trade business, wheat lost from 1/c to 3/c. Corn is without change, outs virtually so, and provisions | 4c off on pork, 7) 4c lower for lard, and from 2) se to be lower on ribs.

The effect of yesterday's increase of the

visible supply was manifest at the opening and wheat began the day from | cto | clower, with the bulls shrouded in gloom. Prices declined steadily for a half hour and the gloom thickened. Northwestern receipts were 658 cars, and, although on last Tuesday 745 cars were reported and in the corresponding time last year 1,146, today's reccipts were too liberal for the stimulation of bullish sentiment. The one encouraging circumstance in the early statistics of the movement was the reported decrease, as compared with the previous week, from the Baltic and other ports. This was given at 4,160,000 bu., as compared with 5,700,000 bu, the week before. This caused a temporary reaction, but the gain was lost when reports from the but the gain was lost when reports from the northwest showed an increase of 52,000 bu, in private Minneapolis elevators. The clearances from the Atlantic ports and New Orleans were heavy, Paris cables recovered from yesterday's drop in prices and an-other recovery here resulted. The expecta-tion that Bradstreet's will increase the visible supply about 1,500,000 bu, caused another tumble, however, and the closing prices were but 4c above the bottom figures of the day. but 14c above the bottom figures of the day.

May opened at 69 kc, sold up 3kc lost 34c, gained 34c, lost 3kc, climbed 14c, lost 3kc, and rallied 34c to the close, at 69c.

Corn was dull-very dull-with fluctuations confined to a range of 14c. May opened 3kc lower, at 40c, lost 3kc, climbed 4kc on light receipts and light estimates for tomor-

row's receipts and closed ke higher than it opened, at 40kc.

The cats market had its share of the prevailing duliness, and had very little else. May opened unchanged at 31% c, sold off 14c on the weakness in the larger markets, evercame its loss and closed at the opening The provision market opened weak and

lower on a decline of 5c in the price of hogs, and declined further with the weakness in wheat. Heavy estimates for tomorrow's hog receipts were also a depressing element, and the closing was lower all around. Estimated receipts for tomorrow: Wheat, 83 cars; corn, 260 cars; oats, 107 cars; hogs,

Minneapolis Wheat Market.

Minneapous Wheat Market.

Minneapous, Dec. 5.—Wheat was dull and lower in futures. It was due chiefly to lack of encouraging news. The flour market was dull. A number of country mills are shutting down and more will have to follow, too, for cash wheat is up within 2½c of the price of May. Flour cannot be made to sell at a profit, the millers say. The price is kept up for track wheat by elevators buying for storage. Sales in the interior continue fair. Receipts were 309 cars; shipments, 30 cars here; December opened at 53½c; May, 53½c; track wheat closed at 63½c; May, 58½c; track wheat closed at 63½c; May, 56½c; track wheat closed at 64½c; hard, 60c; No. 1 northern, 58½c; May sold down to 62½c in the middle of the session; shippers picked up a few cars of track wheat, but most of it was taken by the local millers. Sales of No. 1 northern were mostly made at 60¼@60½c; No. 2 at 59@59½c; close, ¼@½c lower. The market is duil. The decline in freight rates was not enough to help the market materially. There are plenty of bids for flour but as a rule they are not high enough. A few, scattering scales, however, aggregate a fair amount. Production is considerably smaller this week. Shipments, 22,120 bbls. quoted at 43,35@3.75 for first patents; \$3,00@3.25 for second patents; \$1.20@1.26 for low grades in bags, including red dog. The added daily output of mills grinding today will probably aggregate 28,800 bbls. Bran is steady at \$9.50@9.75; shorts, \$9.50@10.50. The qemand is rather small; shorts, shipments, 1,105 tons.

On the London Market.

New York, Dec. 5.—The Post's financial cablegram from London says: Silver was unchanged in price today, but steadier on considerable buying by eastern houses for Bombay on the belief that an Indian export duty on silver is unlike'y. Rupee paper unchanged. The investigation committee on the new Oriental bank's affairs reports a deficiency of over £2,000,000. This is worse than expected, but such scandals no longer affect business. The tone of Americans was depressed on sales of Atchisen securities by lenders who are asked by the company to refiew loans maturing at the end of the year. These persons took fright and represented Atchison as about to collapse. Consols were again flat on rumors of further Indian loans and of imperial requirements for the navy, which are unconfirmed. STOCKS AND BONDS.

Feature of the Speculation Yesterday Was the Attack on Atchison. New York, Dec. 5.—A feature of the speculation on the Stock exchange today was an attack on Atchison, a receiver being rumored. It was given out in the morning in the usual bear channels that the company had failed in its negotiations in London for a loan of \$2,000,000 and there would be a default on the January interest. President Reinhart is in London and there was no way of getting an authoritative statement except by cabling to him, which was done, and during the afternoon an answer came,

'There is no justification for the reports." But in the meantime the stock was being sold freely, very largely on orders from London, causing a break of 218 per cent. When the lowest level was reached there were some purchases to cover short contracts which resulted in a recovery of % per cent and the shares were fairly well held during the afternoon, but even when the denial was given circulation there was no responsive advance and the closing sales were at a de-cline of 1% per cent from last night. In the general market the general run of business was lighter than for some days past and there was some evidence that the bear contingent is getting into line for a campaign. The Atchison incident was used to depress the entire list and at times the pressure to

sell was quite pronounced.

The alleged uncertainty as to the shape in The alleged uncertainty as to the shape in which the tariff bill will pass congress was also made to do service as a means of depressing values. At the opening prices showed a decline from last night of ½ to 1% per cent. An effort was made before the end of the first half hour te rally the market, with small success, for on a renewal of offerings by the heart the list again are to be a success. ings by the bears the list again gave 'way to the extent of 14 to 4 per cent. Cordage pre-ferred sustained the heaviest loss, Denver & Rio Grande preferred dropping 13 per cent. During the hour before noon, the business was contracted but the tone of the business was contracted but the tone of the market was weak, Cordage preferred receding 14 per cent. After midday the speculation became steadier and a gradual improvement was begun which continued until the delivery bour at which time an advance had been established of 4 to 3½ per cent. Another selling movement then set in which was assisted by some residing rates. Another selling movement then set in which was assisted by some realizing sales. Sugar entered most largely into the dealings, opening at a decline of ½ per cent, but steadily improved until an advance of 2 per cent had been established, then reacting 1½ per cent and recovering ½ per cent. The general market was weak at the close.

The Post says: In spite of the exceeding languid market today's indications were that the operators for lower prices were experimenting again on stocks. The opera-

perimenting again on stocks. The opera-tions, however, were of no slashing and ag-gressive character. They suggested, on the contrary, a cautious feeling of the way. If the tariff bill were to be willfully obstructed and delayed the consequent feeling of dis-couragement would of itself control the market. Fortunately the belief seems to be extending here and in Washington that the bill in some form will pass into law with bill in some form will pass into law with reasonable speed. This probability and the investment pressure from the expanding money reserve are the factors in the situa-tion which encourage caution on the part of the speculative scilers. Today's decline in prices, most of which happened during the first half hour, began in London and took shape most effectively in Atchison stock. The story of impering bakruptcy, which was carefully distributed throughout Wall street this morning, seems to have been restreet this morning, seems to have been restreet this morning, seems to have been re-vived today, chiefly because the Atchison's responsible officers were all, as it happened, absent from their usual place of business. Therefore it was not easy to get trust-worthy denials until late in the afternoon.

OMAHA LIVE STOCK MARRETS.

Cattle Trade Shows Little Change-Hogs Improve in Strength.
Tuesday, Dec. 5.

There was a fair supply of all kinds of stock today. The two days receipts foot up 7,280 cattle, 6,440 hogs and 140 sheep, against 6.895 cattle, 8,505 hogs and 3,691 sheep Monday and Tuesday of last week.

The cattle market was not far from steady, although it was by no means strong. Supplies were more than ample for the re quirements of the trade, that is, there were more common cattle here than buyers cared to use, the really desirable grades being lamentably scarce. The local demand was fair, and good beef steers were picked up fair, and good heef steers were picked up readily at from \$4.25 to \$4.50 for 1,131 to 1,335-ib. beeves. It was as usual dull, weak and aneven on the common run of stuff, with sales all the way from \$3.15 up to \$4. Most of the westerns were cows and feeders, range beeves having already been pretty well marked Business was far from lively marketed. Business was far from lively and there were some cattle still unsold at

The cow market was tolerably active, with prices ranging from about steady on good to choice stock to a stude lower on the commoner grades. Sufes included poor40 fancy cows and helfers at from \$1.50 to \$3.20, but the fair to good butchers stock sold largely at from \$2 to \$2.50. The market for calves was about steady, with sales at from \$2 to \$5. Rough stock was generally unchanged, common to choice buils, oxen and stags self-

common to choice buils, oxen and stags selling at from \$1.60 to \$3.25.

There was a reasonably active trade in stockers and feeders, and prices ruled stronger on all suitable offerings. No improvement was noticeable in the common light stock. It is in very poor demand even at low prices. Good to choice feeders are quoted at from \$3 to \$3.60; fair to good at from \$2.70 to \$3, with inferior to fair grades at from \$2.10 to \$2.65. Hogs-The market today was almost exactly a repetition of Monday's trade. Re ceipts were not heavy, but as eastern ad vices were rather unfavorable the feeling at the opening was rather weak. In addition to the usual good local demand, however, there was a moderate inquiry from shippers. This had a healthy influence on the market and had a healthy influence on the market and trading was rather active on the basis of strong Monday's prices. The range was narrow, practically from \$5.10 to \$5.20 for common to choice hogs of all weights. It did not take very long to clear the pons, the market closing up strong. As on Monday the big bulk of the trading was at from \$5.10 to \$5.15, with the latter the ponular page today. A week the latter the popular price today ago today most of the hogs sold at from \$5.15 to \$5.20. Representative sales:

Chicago, Dec. 5.—To the 7,000 head received today at least 5,000 head of stale cattle were added, making a supply of 12,000 head. That is a large supply for a Tuesday, 8,000 head being about an average. There was but a little demand and prices were weak and unevenly lower. A few choice beeves changed hands close to yesterday's quotations, or at not more than from 15c to 20c off from the highest prices of last week, but anything

crading below choice was slow at a docline of from 10c to 20c. For the inter the market has lost nearly all it gained has week. Most of today's spices were at prices ranging downward from \$5. Very few of the steers sold at from \$3.75 to \$4 and it took something good to bring \$1.25.

They hammered bogs sown a couple of points more today. Heavy hogs were forced linck to from \$5 to \$5.40, and the closing quotations for light and meelium weights were from \$5.10 to \$5.50. No one attempted to account for the weakness, indeed no reasonable explanation could be given. Supplies continue remarkably light, nor are there may indications of heavy runs in the near future, but packers are as bearish as though the receipts were ranning from 40,000 to 50,000 head, as in future years, instead of from 20,000 to 30,000 head, as in present. The average of prices was from 10c to 15c lower than they were a week ago. Since Saturday about 57,500 head have arrived, as against 55.832 the same time last week and 64.884 a year ago. The link of the staff in today's market sold below \$5.40, a large part at from \$5.15 to \$5.50. The close was dult and weak.

The nearly 19,000 head of sheep received.

today's markot sold below \$5.40. a large part at from \$5.15 to \$5.30. The close was dull and weak.

The nearly 19.000 head of sheep received yesterday was followed by 12.000 roday, making a supply since Saturday of not far from 31.000 head. This is about 6.000 more than 31.000 head. This is about 6.000 more than a year ago. As, perhaps, half of yesterday's receipts were self over, the number on today's market was greatly in excess of the combined wants of the trade, and as a natural consequence prices again ruled very low. Good wethers sold around \$3 and thore was comparatively little business better than \$3.15. Quotations for skeep ranged from to \$1 to \$2.50 for poor to median and from \$2.75 to \$3.40 for good to choice. Christmus stock is not taken into consideration in the above quotations. Lambs were quoted at from \$2.75 to \$4.05, with sales principally at from \$2.50 to \$4.05, with sales principally at from \$3.50 to \$4.25.

CRIME IN HIGH PLACES! It is uot strange that some people do wrong through ignorance, others from a failure to investigate as to the right or wrong of a matter But it is strange, that individuals and firms, who are fully aware of the rights of others, will persist in perpetrating frauds upon them. High-toned, wealthy manufreturing firms will offer and sell to retail merchants, articles which they know to be infringements on the rights of proprietors, and imitations of well known goods. We want to sound a note of warning to the retailers to beware of such imita-tions and simulations of "CARTER'S LIT-TLE LIVER PILLS." - When they are of fered to you, refuse them; you do not want to do wrong, and you don't want to lay yourself liable to a lawsuit. Ben Franklin said "Honesty is the best policy": it is just as true that "Honesty is thebest principle."
